August 2009

DEPARTMENT OF EDUCATION

2008-2009 School Year Reports

Dear School Board Members and School Personnel:

The Maine Comprehensive Assessment System is the State's measure of student progress in achieving the State standards known as *Learning Results*. The Maine Educational Assessment (MEA) is administered in grades 3 through 8 to meet these state assessment requirements. Since the spring of 2006, the SAT Reasoning TestTM (SAT) has been administered to students in their third year of high school in place of the MEA for state and federal purposes. The move from the MEA to the SAT in grade 11 was made to encourage all students in the goal of attaining college and high-level workplace readiness as well as to measure academic achievement. This year, the mathematics portion of the SAT Reasoning TestTM was augmented with 11 additional mathematics items (the Math-A test) to more fully measure Maine's *Learning Results*. The assessment continues to include science testing, which resumed last year after a two-year hiatus. The combined set of tests comprises the Maine High School Assessment (MHSA).

These 2008-2009 Maine High School Assessment Summary Reports contain the results of student performance in critical reading, mathematics, writing, and science reported according to the academic standards described above and disaggregated by student and school characteristics. The MHSA achievement level standards for the 2009 critical reading, writing, mathematics and science sections of the MHSA were determined by Maine educators with specific expertise within the content areas. This report, together with individual student and subject-specific student roster reports, provides support for use in program evaluation and planning. All scores contained in these reports are included for Maine state and federal reporting purposes only. While scores from the SAT may also be used for college admission by most students, they may not be used for that purpose if a student received accommodations during the test administration that exceeded those made available by the College Board.

These results reflect scores based on SAT, Math-A, and Science test questions that were taken by over 15,000 students who were enrolled in their third year of high school across all Maine public schools. The MHSA employs an assessment design that requires students to create a written response to a writing prompt, generate answers to open-ended mathematics and science questions, and in all subjects, select answers to multiple-choice questions. More information about the design, history, and use of the SAT can be found at: http://www.maine.gov/education/sat_initiative/.

I look forward to working with you in support of our continued efforts to improve the quality and effectiveness of the instructional opportunities designed to help all students achieve the high standards of the *Learning Results* and graduate from any Maine high school prepared for college, career, and citizenship.

Susan A. Lendron

Sincerely,

Susan A. Gendron

Commissioner of Education

High School Report

Test Date: May 2009

Code: 12491714

SAU: MSAD 55

School: Sacopee Valley High Sch

Contents of the Report

The report is divided into six main sections including a section describing the students tested and a separate section for the results in each content area.

CRITICAL READING RESULTS

Test Date: May 2009 SAU: MSAD 55

School: Sacopee Valley High Sch

ACHIEVEMENT LEVELS: Achievement level definitions describe the quality of a student's response. on state-level assessments in relation to the reading standards for achieving Maine's Learning Results. Maine state-level assessments measure the knowledge and skills of students by sampling identified standards within reading at the grade level assessed. Evidence includes responses to multiple-choice items in an "on demand" setting.

Exceeds the Standards – The student's work demonstrates the ability to read and interpret literary and informational texts appropriate for the grade level by applying a variety of

reasoning skills and prior knowledge as the student draws in-depth inferences, analyzes

texts for subtle clues, synthesizes information across texts, and uses knowledge of text

Meets the Standards – The student's work demonstrates the ability to read and interpret

reasoning skills and prior knowledge as the student draws inferences, identifies summary

statements, connects ideas within and across texts, and uses knowledge of text structures

Partially Meets the Standards – The student's work demonstrates an inconsistent ability to read and interpret literary and informational texts appropriate for the grade level. The

student's ability to use a variety of reasoning skills and prior knowledge varies depending

and across texts, and uses knowledge of text structures and literary devices to support

on the texts as s/he draws inferences, identifies summary statements, connects ideas within

Does Not Meet the Standards – The student's work demonstrates a limited ability to read and interpret literary and informational texts appropriate for the grade level. The student's

responses are often incorrect leaving the impression that the student found it difficult to

use a variety of reasoning skills and prior knowledge as s/he draws inferences, identifies

summary statements, connects ideas within and across texts, or uses knowledge of text

structures and literary devices to support comprehension. (scaled score 1100-1128)

and literary devices to increase comprehension. (scaled score 1142-1160)

literary and informational texts appropriate for the grade level by applying a variety of

structures and literary devices to make deeper connections within or across texts to

increase comprehension. (scaled score 1162-1180)

comprehension. (scaled score 1130-1140)

STUDENTS AT EACH ACHIEVEMENT LEVEL

ACHIEVEMENT LEVELS: Achievement level definitions describe the quality of a student's responses on state-level assessments in relation to the writing standards for achieving Maine's *Learning Results*. Maine state-level assessments measure the knowledge and skills of students by sampling identified standards within writing at the grade level assessed. Evidence includes responses to a combination of multiple-choice items and items requiring student-created responses in an "on demand" setting.

Exceeds the Standards – The student's responses demonstrate skillful ability to select clear, precise sentence improvements that are free of awkwardness or ambiguity; to recognize grammar and usage errors;

essay demonstrates an effectively developed and insightful point of view on the issue and outstanding

essay is well-organized and clearly focused, demonstrating clear coherence and smooth progression of

that add to the clarity and overall effectiveness of a passage. The student's essay demonstrates an

ideas and free of most errors in grammar, usage, and mechanics. (scaled score 1162-1180)

and mechanics. (scaled score 1142-1160)

and to select revisions that add to the clarity, precision and overall effectiveness of a passage. The student's

critical thinking, with clearly appropriate examples, reasons, and other evidence to support a position. The

Meets the Standards – The student's responses demonstrate ability to select clear sentence improvements that are free of awkwardness or ambiguity; to recognize grammar and usage errors; and to select revisions

effectively developed point of view on the issue and strong critical thinking, with generally appropriate

demonstrating coherence and progression of ideas and generally free of most errors in grammar, usage,

Partially Meets the Standards – The student's responses demonstrate inconsistent ability to select clear sentence improvements that are free of awkwardness or ambiguity; to recognize grammar and usage

errors; and to select revisions that add to the clarity and overall effectiveness of a passage. The student's

inconsistently or with inadequate examples, reasons, or other evidence to support a position. The essay is

generally organized and focused, but may demonstrate some lapses in coherence or progression of ideas

essay demonstrates a developed point of view on the issue and some critical thinking, but may do so

and may contain errors in grammar, usage, and mechanics. (scaled score 1130-1140)

examples, reasons, and other evidence to support a position. The essay is well-organized and focused,

The MHSA assesses students' science knowledge based on questions that measure the science accountability content standards highlighted in Maine's 2007 *Learning Results: Parameters for Essential Instruction*, which can be found at: http://www.maine.gov/education/lres/pei/index.html.

Content Standard D. The Physical Setting

- D1 Universe and Solar System
- D2 Earth
- D3 Matter and Energy
- D4 Force and Motion

Content Standard E. The Living Environment

- E1 Biodiversity
- E2 Ecosystems
- E3 Cells
- E4 Heredity and Reproduction
- E5 Evolution

SCIENCE RESULTS BY REPORTING SUBGROUPS

Test Date: May 2009 SAU: MSAD 55
